

Item # 3-2

**City of Carson City
Board of Supervisors Agenda Report**

Date Submitted: December 11, 2007

Agenda Date Requested: December 20, 2007

Time Requested: Consent

To: Mayor and Board Members

From: Andrew Burnham, Public Works Director

Subject Title: Action to approve a request by the "Commission For The Reconstruction Of The V & T Railway" for the City to pay the costs to relocate a water main for the Phase 2C Railroad Construction Project.

Staff Summary: This action would provide for Public Works-Water Division to assist in the relocation of a water main which serves the new city east tank out ahead of construction of the railroad project.

Type of Action Requested: (check one)
 Resolution Ordinance
 Formal Action/Motion Other (Specify)

Does This Action Require A Business Impact Statement: Yes No

Recommended Board Action: I move to approve a request by the "Commission For The Reconstruction Of The V & T Railway" for the City to pay for the costs to relocate a water main for the Phase 2C Railroad Construction Project.

Explanation for Recommended Board Action: The estimated costs to relocate the water main is \$20,000 and would be designed by city staff and a contract would be bid for the actual relocation. The project should be undertaken over the next six months to be ahead of the railroad construction project.

Applicable Statute, Code, Policy, Rule or Regulation: N/A

Fiscal Impact: \$20,000. .

Funding Source: Water Fund- Participation Account

Alternatives: Not approve the request and require the V & T to bear the cost of relocation.

Supporting Material: Letter from V & T.

Re: V & T Railway Reconstruction: Request for Participation in Watermain Relocation to Support Phase 2C Railroad Construction

Dear Andy:

On behalf of the Commission for the Reconstruction of the V&T Railway, I would like to take this opportunity to request that Carson City consider assisting the Railway Commission with the relocation of a segment of the City's water line in conjunction with the upcoming Phase 2C Railroad Construction.

In order to proceed with the construction of Phase 2C, we will need to construct an embankment, or fill section, over a short segment of Carson City's watermain serving the new tank east of Flint Drive. The proposed railroad crosses the watermain just as it turns 90-degrees "up" the hill east of Flint Drive. In order to protect the watermain and provide for future maintenance requirements, the watermain should be placed in a steel casing pipe. The Commission would like to request that the Carson City Public Works Department provide the necessary watermain design and relocation work and casing construction at this location in support of the railroad project.

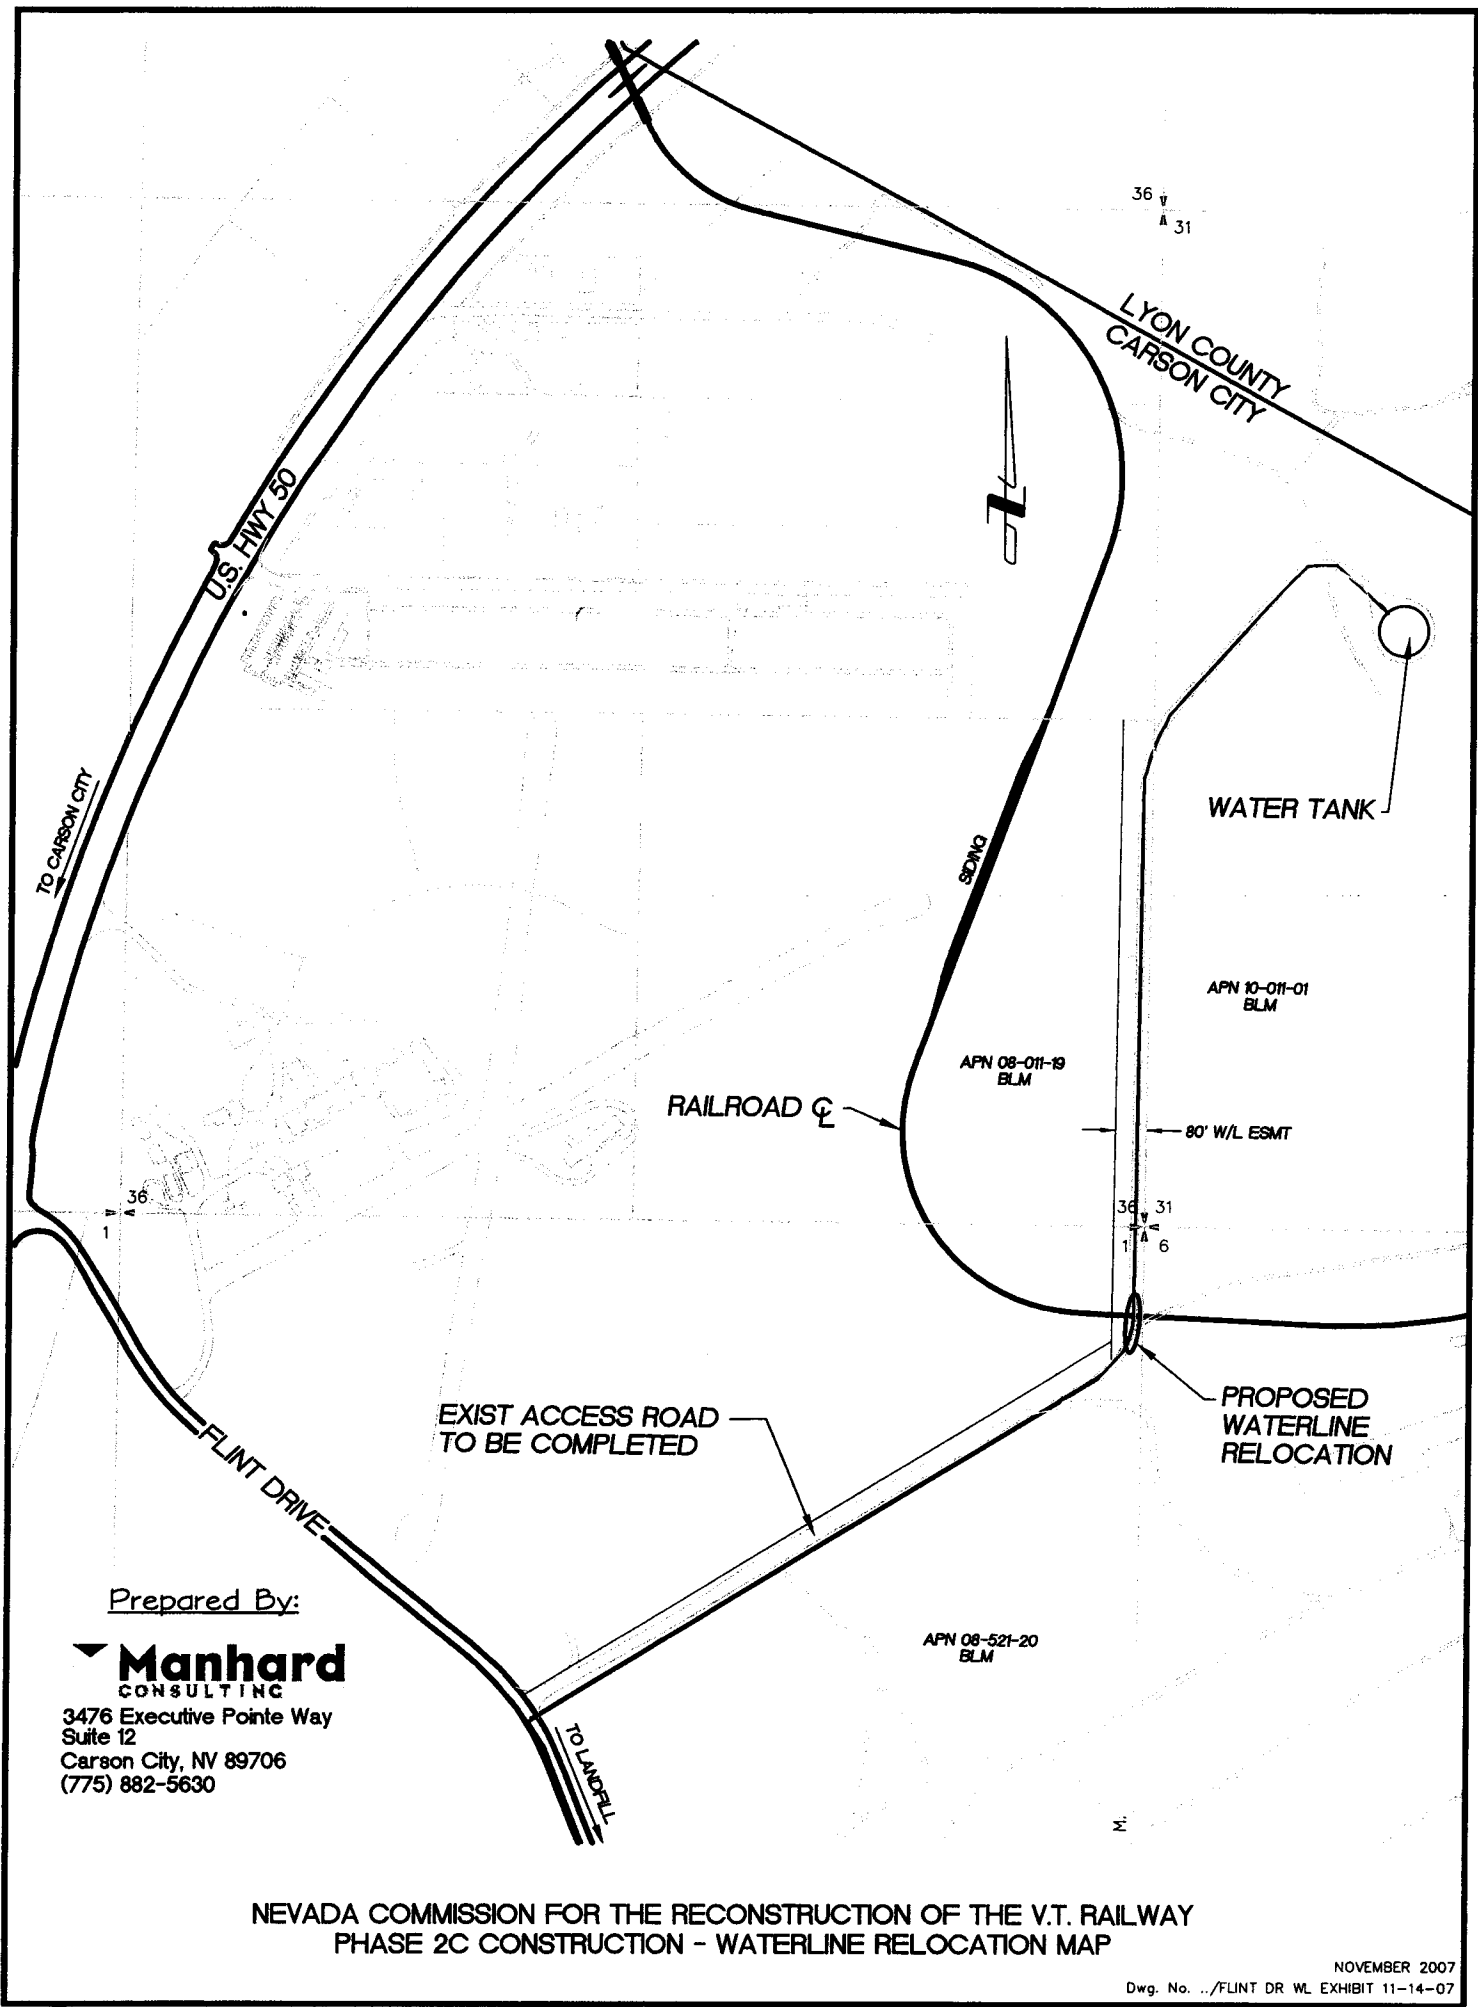

For your information, the Railway Commission will be including the completion of the fill placement for the City's waterline access road near this location out to Flint Drive as a part of the Phase 2C project.

Thank you again for your assistance on this project. If you have any questions, please don't hesitate to call me at 882-5630, Extension 4902.

Sincerely,

Kenneth L. Dorr, P.E.
