Subject: Carson City MAC project to receive Nevada Builders' Award...

As a member of the team responsible for this project you are invited to join us at the NNDA Pioneer Awards on April 7th. Nevada Builders will provide up to 2 tickets for each of you, please RSVP by Friday April 1.

Here are more details on the award:

Nevada Builders Alliance is proud to present the Golden Hammer Award, in collaboration with NNDA's Pioneer Awards, to recognize the most impactful construction project for our region in the last year.

The Carson City Multi-use Athletic Center has been a dream of the community for some 20 years. The Nevada Builders would like to recognize the team that finally brought this project to completion. A project of this significance and scale required leadership on the part of Supervisors and staff within Carson City and the expertise of Miles Construction and their project team. The significance of this project will have an exponential impact on the region for generations to come.
