Background/Issues & Analysis

In November 2017, the City hired the consulting firm of Sloan Vazquez McAfee (SVM) to assist in the development of a request for proposal for solid waste and recyclable materials franchise agreement. SVM would also assist in soliciting public input and conducting public meetings to gather input as to what should be included into the new agreement.

SVM developed a questionnaire to stimulate feedback from current and potential residential and commercial customers from within Carson City. The City converted the questionnaire into an online format that was hosted on the City's website so that the questionnaire could be completed and submitted directly from this site. SVM also established an email address specifically for individuals to request a questionnaire, submit a completed questionnaire, or to provide unscripted input. Questionnaires were also made available for pick-up at the Public Works Department.

Five public meetings were held during the months of February and March in order to meet with the public, engage in an open discussion, and collect additional input directly from public. The public meeting dates and times and a request to complete a questionnaire were advertised via a note on all water bills, via social media

(Facebook, Twitter), communications to the Cason City Chamber of Commerce, communications to the Downtown Business Association, on CarsonNow.org, within specific articles and the opinion section of the Nevada Appeal, and a specific advertisement in the Sunday edition of the Nevada Appeal prior to each public meeting. A total of 475 completed questionnaires were received plus other unscripted comments via email and phone message. During this period, potential bidders and other interested local haulers have been solicited to get their input.

The end result of all of the information collected is the presentation before the Board today.
