Valuation: $1.6 Million
BUILDING PERMIT ISSUED

2989 Highway 50 East

O’Reilly Auto Parts
New auto parts store
Permit Valuation: $520,400

Project Status Updated May 7, 2020

Community Development Department
GM-2020-0001  For Possible Action: Discussion and possible action regarding the maximum number of residential building permit allocations under the Growth Management Ordinance for the years 2021 and 2022 and estimating the maximum number of residential building permits for the years 2023 and 2024; establishing the number of building permit allocations within the Development and General Property Owner categories; and establishing a maximum average daily water usage for commercial and industrial building permits as a threshold for Growth Management Commission review. (Lee Plemel, lplemel@carson.org)

Summary: The Growth Management Commission is required to make annual recommendations to the Board of Supervisors to establish the number of residential permits that will be available for the following calendar year. This has historically been based upon a maximum growth rate of three percent. The commercial and industrial daily water usage threshold is 15,000 gallons per day annual average in 2020, above which Growth Management Commission approval is required.

SUP-15-077  For Possible Action: Discussion and possible action regarding a request for a one year time extension to the Special Use Permit for multi-family apartments in a Retail Commercial (RC) zoning district on property zoned Retail Commercial-Planned Unit Development (RC-P), located at the northwest corner of GS Richards Blvd. and Country Club Drive, APNs 007-461-22 and -23.(Hope Sullivan, hsullivan@carson.org)

Summary: At its meeting of December 17, 2015, the Board of Supervisors approved the Special Use Permit to allow a 90-unit apartment complex with a clubhouse on the subject property. The developer has obtained time extensions over the years due to material and labor shortages. The applicant is seeking an additional one-year extension due to the unforeseen economic impacts of the recent pandemic. This would mean that the use must commence by December 17, 2021. The Planning Commission is authorized to grant a time extension.
